DETAILED ACTION

Response to Amendment

The amendment filed 12/27/04 has been entered.

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-20, drawn to a method for guiding a business after an initial funding state, classified in class 705, subclass 36.
- II. Claim 21, drawn to a method, classified in class 705, subclass 10.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have (1) different modes of operation, (2) different functions, or (3) different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions, the inventions can stand alone and have (1) different modes of operation, thus resulting in (3) different effects. For example,

(1) scope of claim, based on the preamble:

Claim 1: "guiding a business after an initial funding state", vs.

Claim 21: none because there is no preamble;

Or (2) Step (a), requires:

Claim 1: "presenting an initial customer interface and gathering customer feedback", vs.

Claim 21: "using one or more disposable solutions";

Art Unit: 3629

Or (3) Step (b) requires:

Claim 1: "refining said customer interface based on the customer feedback", vs.

Claim 21: "replacing one or more disposable solutions with a new architecture";

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper. Furthermore, it's a serious burden for the examiner to examine all of these inventions together.

4. A telephone call was made to the office of Applicant's Attorney on 3/25/2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Art Unit: 3629
